Dear Managing Editor  
Journal; of Applied Horticulture

I am writing to send REVISED VERSION of the manuscript.

The manuscript has been REFERRED to Dr. James Butler CSIRO Australia for internal review.

Please find

1. Revised Version (after editing)
2. Original document showing the review process (by Track changes mode)

We wish the manuscript fit the criteria for publication in Journal of Applied Horticulture.

We are looking forward for your best response,

Kind Regards,

Aluh Nikmatullah  
Corrsponding Author

Dear Managing Editor  
Journal of Applied Horticulture

Good Morning,

I wish to follow up our previous communication regarding our submitted manuscript to the JAH

We have followed your instruction, and have the paper reviewed by experienced scholar (Dr. James Buttler, CSIRO Australia), and we have sent you since last month.

1. Reviewed version
  2. Track changes reviewing processes.
- Here I sent again the document.

However, we have yet to hear your response .

Please kindly inform us your decision on our manuscript.

Sincerely Yours,

To: Aluh Nikmatullah <aluh\_nikmatullah@unram.ac.id>

Dear Author(s)

Thanks for giving us the opportunity of reviewing the manuscript for possible publication in Journal of Applied Horticulture. We are pleased to inform you that preliminary screening committee considers contents of your paper suitable for publication in JOURNAL OF APPLIED HORTICULTURE after modifications as per following suggestions:

The authors guidelines have not been properly followed, please click following url for modifications in the manuscript. You can paste the following line in browser if not getting link

<<http://horticulturereaserach.net/references%20table%20and%20figure%20style.pdf>><http://horticulturereaserach.net/references%20table%20and%20figure%20style.pdf>

Please see following checklist and if already adopted, it will reduce correspondence time

- \* Use reference style and title of the journal/publication as per the abbreviations suggested in the link.
- \* If graphs are in excel please make the line width 0.05 pt and marker size 5
- \* Please submit the figures in vector format (wmf or eps) for better reproduction or you can send the figures directly pasted in PowerPoint using paste special.
- \* Or print directly print to editable pdf from the software in which graph were made
- \* Or forward figures (original file) in native format i.e., software in which they were made (for example it may be in excel,

Sigma Plot, Statistica) and not pasted in word file from these software.

Please add "Revised Manuscript" in file name while submitting the modified manuscript and add all tables in one file along with text of the paper.

Hope you will help us by arranging review by one referee at your end for quick processing and if you require further information, please do not hesitate to let me know.

\* Please provide email ID of all the co-author(s)

With best regards

Managing Editor

Dear Managing Editor  
Journal of Applied Horticulture,

Greetings from Us.

This is a kind reminder that you will send to me the pdf version of manuscript as we have submitted .

Many thanks

Best wishes,

Dear Author

Due to some unavoidable reasons we could not send the pdf proof of the paper. Please find attached pdf proof and critically examine it for assuring the proper place of tables, figures and legends in pre printing format. You are also requested to examine the proof for proper placement of fonts and symbols any further modification needed in manuscript/format. We will be incorporating corrections indicated by editors separately after receiving inputs from you.

You may suggest corrections in attached word file and pdf for further action at our end.

Hoping for an early response so that paper is processed for final pdf proof.

With best regards

Dear the Managing Editor  
Journal of Applied Horticulture,

Thank you very much for the pdf proof of the manuscript. We have examined the MS, and put yellow highlights for some request amendments (As kindly Attached), For a better performance of the manuscript, my we have same editing as follows:

1. Page 4. Sub Tittle " Growth and yield of apical cuttings under different spacing and fertilizer rates. We suggested the Subtitle shall be in the same page (not separated)
2. Page 4. the word SPACIN at the end of the first paragraph of the sub titles "Growth and yield of apical cuttings under different spacing and fertilizer rates" SHALL BE **SPACING**
3. Page 7: References. Lehar..... <http://www.ifrj.upm.edu.my> **SEEMS TO HAVE BIGGER FONT than the rest of the text.**

Many thanks and we are looking forward for the publication.

Best Regards,
