Dear Editor of International Journal of Corrosion and Scale Inhibition

I am submitting a manuscript for consideration of publication in International Journal of Corrosion and Scale Inhibition. The manuscript is entitled "Isolation, Characterization, and Theoretical Study of (E)-ethyl 3-(4-methoxyphenyl)acrylate as Corrosion Inhibitor of Iron in 1 M HCl Solution".

It has not been published elsewhere and that it has not been submitted simultaneously for publication elsewhere. All authors have approved the manuscript and agree with its submission to International Journal of Corrosion and Scale Inhibition

Thank you very much for your consideration.

Yours Sincerely,

Dr. Saprizal Hadisaputra
University of Mataram

Dear Dr. Saprizal Hadisaputra,

Your manuscript has been reviewed. The Reviewer writes: I examined the paper. The authors have studied the corrosion inhibition behaviour of a plant extract using weight loss and theoretical methods. The authors should also study the electrochemical behaviour. Therefore, I suggest a minor revision, The paper can be published after including the electrochemical study.

Best regards
N.Andreev

Dear S. Hadisaputra,

We are ready to start prepare your article for publication. The publication cost is currently \$200 (USA Dollars). Is it convenient for you to transfer this amount via Western Union? Furthermore, the Abstracts needs to be expanded to no less than 200 words.

Best regards,
N.Andreev

Dear N. Andreev

I am willing to pay the publication fee of \$200 (USA Dollars) via Western Union. Could you please send your bank account number.
I will add the number of words in the abstract as suggested.

Best regards,
S. Hadisaputra

Dear S. Hadisaputra,
You can pay for the publication (200 USA Dollars) via Western Union. The following information is needed for the money transfer: payee - Andreev (last name) Nikolay Nikolaevich, country - Russia. You should send us the full name of the payer, the country from which the payment is sent, transfer number and amount. It is best to send a photo image of the transfer voucher by e-mail.
Best regards,
N. Andreev

23 November 2018 23.24

Dear S. Hadisaputra,

Your paper is in preparation for publication. A few small questions:

- 1) in the title you call the compound (E)-ethyl 3-(4-methoxyphenyl)acrylate, this is correct with a space after ethyl, however, in the rest of the paper you mention (E)-ethyl-3-(4- ... , i.e., with a dash (-) after ethyl. I could adjust all the names to the correct form (as in the paper title). Do you agree? At least it should be consistent.
- 2) in 2.4 you mention "sedtilled water " - do you mean distilled?
- 3) in Table 3 and in Conclusions you mention Egab, perhaps it should be Egap (as it is for "energy gaps ")?

Please respond ASAP.

Best regards,
Dr. S.Vesely, IJCSI

24 November 2018 08.25

Dear Dr. S. Vesely,

Thank you for the correction.

1. I agree, the changes you made are correct. It should have space after ethyl for consistency.
2. Yes, distilled is the correct word, not sedtilled
3. Yes, Egap is the correct symbol for energy gaps, not Egab.

Best Regards
S, Hadisaputra
