Dear Editor of Int. J. Electrochem. Sci.

I am submitting a manuscript for consideration of publication in the International Journal of Electrochemical Science. The manuscript is entitled "Experimental and Theoretical Study of Corrosion Inhibition of (2R)-5-hydroxy-7-methoxy-2-phenyl-2,3-dihydrochromen-4-one for Iron in Hydrochloric Acid".

It has not been published elsewhere and that it has not been submitted simultaneously for publication elsewhere. All authors have approved the manuscript and agree with its submission to International Journal of Electrochemical Science.

Thank you very much for your consideration.

Yours Sincerely,

Saprizal Hadisaputra

Dear dr Hadisaputra, I have checked your revised paper and found following:

RESULTS and DISCUSSION section, all subsections. The authors gave discussion, but the discussion was not adequate and was not compared with similar discussion and results that were published by other authors. The authors used and cite some references, but it is not enough for suitable scientific discussion. The authors have to cite more related and relevant papers and give more discussion and evidence for their claims. [Please, consider the remark.](#)

Reference section: The authors should use corrected abbreviated title for all cited journals (see below link):

<http://www.cas.org/content/references/corejournals>

The authors should use IJES format for used references. For example:

1. Y. Hong, Y.K. Kim, J.H. Chang, S.H. Kim, H. Choi, D.H. Nam, Y.Z. Kim and J.H. Kwak, *J. Med. Chem.*, 23 (1997) 3584. (for abbreviated journal title)
2. B.M.H. Al-hadiya, A.A. Khady and G.A.E. Mostafa, *Talanta*, 83 (2010) 110. (for full journal title or full last word in abbreviated journal title – *J. Power Sources, Electrochim. Acta, Corrosion*,)

There are many mistakes regarding punctuation (comma, space, full stop,..). Please, check all text. Please, do not use et al., too.

[Please, use correct IJES reference format.](#)

Best regards

M. Antonijevic
