Annals of Medicine and Surgery

The following information is required for submission. Please note that failure to respond to these questions/statements will mean your submission will be returned. If you have nothing to declare in any of these categories then this should be stated.

Please state any conflicts of interest

All authors must disclose any financial and personal relationships with other people or organisations that could inappropriately influence (bias) their work. Examples of potential conflicts of interest include employment, consultancies, stock ownership, honoraria, paid expert testimony, patent applications/registrations, and grants or other funding.

The authors declare that they have no conflict of interests

Please state any sources of funding for your research

All sources of funding should be declared as an acknowledgement at the end of the text. Authors should declare the role of study sponsors, if any, in the collection, analysis and interpretation of data; in the writing

of the manuscript; and in the decision to submit the manuscript for publication. If the study sponsors had no such involvement, the authors should so state.

No funding or sponsorship

Ethical Approval

Research studies involving patients require ethical approval. Please state whether approval has been given, name the relevant ethics committee and the state the reference number for their judgement.

All procedure for research has been approved by Ethics Commission Faculty of Medicine,
Mataram University

Consent

Studies on patients or volunteers require ethics committee approval and fully informed written consent which should be documented in the paper.

Authors must obtain written and signed consent to publish a case report from the patient (or, where applicable, the patient's guardian or next of kin) prior to submission. We ask Authors to confirm as part of the submission process that such consent has been obtained, and the manuscript must include a statement to this effect in a consent section at the end of the manuscript, as follows: "Written informed consent was obtained from the patient for publication of this case report and accompanying images. A copy of the written consent is available for review by the Editor-in-Chief of this journal on request".

Patients have a right to privacy. Patients' and volunteers' names, initials, or hospital numbers should not be used. Images of patients or volunteers should not be used unless the information is essential for scientific purposes and explicit permission has been given as part of the consent. If such consent is made subject to any conditions, the Editor in Chief must be made aware of all such conditions.

Even where consent has been given, identifying details should be omitted if they are not essential. If identifying characteristics are altered to protect anonymity, such as in genetic pedigrees, authors should provide assurance that alterations do not distort scientific meaning and editors should so note.

This manuscript data from medical record patient with traumatic brain injury during pandemic in multi center hospital in indonesia

Author contribution

Please specify the contribution of each author to the paper, e.g. study concept or design, data collection, data analysis or interpretation, writing the paper, others, who have contributed in other ways should be listed as contributors.

AZ, IR, TDY, UZI, BAM, KVG, SWN, NAA, MDN, and AIH wrote the manuscript and participated in the study design. RHA, NUW, TDY, UZI, BAM, KVG, SWN, NAA, MDN, and AIH drafted and revised the

manuscript. RHA, NUW, TDY, UZI, BAM, KVG, SWN, NAA, MDN, and AIH performed head trauma treatment and surgery. RHA, NUW, TDY, UZI, BAM, KVG, SWN, NAA, MDN, and AIH performed bioinformatics analyses and revised the manuscript. All authors read and approved the final manuscript

Registration of Research Studies

In accordance with the Declaration of Helsinki 2013, all research involving human participants has to be registered in a publicly accessible database. Please enter the name of the registry and the unique identifying number (UIN) of your study.

You can register any type of research at <http://www.researchregistry.com> to obtain your UIN if you have not already registered. This is mandatory for human studies only. Dear Dr Rosyidi,

Thank you for sending your manuscript ALGORITHM OF TRAUMATIC BRAIN INJURY MANAGEMENT AT INDONESIA IN THE COVID 19 PANDEMIC ERA for consideration to Annals of Medicine and Surgery.

Please accept this message as confirmation of your submission.

When should I expect to receive the Editor's decision?

For Annals of Medicine and Surgery, the average editorial time (in weeks) from submission to first decision is: 5.07 and from submission to final decision is: 10.13.

What happens next?

Here are the steps that you can expect as your manuscript progresses through the editorial process in the Editorial Manager (EM).

1. First, your manuscript will be assigned to an Editor and you will be sent a unique reference number that you can use to track it throughout the process. During this stage, the status in EM will be "With Editor".
2. If your manuscript matches the scope and satisfies the criteria of Annals of Medicine and Surgery, the Editor will identify and contact reviewers who are acknowledged experts in the field. Since peer-review is a voluntary service, it can take some time but please be assured that the Editor will regularly remind reviewers if they do not reply in a timely manner. During this stage, the status will appear as "Under Review".

Once the Editor has received the minimum number of expert reviews, the status will change to "Required Reviews Complete".

3. It is also possible that the Editor may decide that your manuscript does not meet the journal criteria or scope and that it should not be considered further. In this case, the Editor will immediately notify you that the manuscript has been rejected and may recommend a more suitable journal.

For a more detailed description of the editorial process, please see Paper Lifecycle from Submission to Publication: http://help.elsevier.com/app/answers/detail/a_id/160/p/8045/

How can I track the progress of my submission?

You can track the status of your submission at any time at <http://ees.elsevier.com/AMSU>

Once there, simply:

1. Enter your username: Your username is: rha.ns2010@gmail.com

If you need to retrieve password details, please go to:

Dear Dr Rosyidi,

Thank you for your recent submission to Annals of Medicine and Surgery.

Before we send your manuscript out for review, we kindly request that you make the following changes/corrections.

Registration of Research

The World Medical Association's Declaration of Helsinki 2013 states in article 35: 'Every research study involving human subjects must be registered in a publicly accessible database before recruitment of the first subject'. The Editors of AMS require that all types of research studies involving human participants should be registered prospectively, but failing that retrospectively. There are many places to register your research, and you can choose which is the most suitable for your needs:

*Clinicaltrials.gov - for all human studies - free

*Chinese Clinical Trial Registry chictr.org.cn - for all human studies - free

*Researchregistry.com - for all human studies - charge

*ISRCTN.com - for all human studies - charge

*Prospero - for systematic reviews - free

*There are many national registries approved by the UN that can be found, please refer to the Guide for Authors.

Elsevier does not support or endorse any registry.

Once registered, you will need to submit your assigned Unique Identifying Number (UIN) from your registration body as a mandatory part of your submission, please add the number and the URL of the registration site to the Author Form.

To make these amendments, please do the following:

1. Go to this URL: <https://www.editorialmanager.com/amsu/>

2. Enter your login details
