

Subdural Drainage of Liquor Cerebrospinal and Early Tracheostomy : Alternative Management of Severe Traumatic Brain Injury with Minimal Lesion in Limited Facility and Rural Area

From: Rohadi Muhammad Rosyidi, MD, Neurosurgeon
Medical Faculty - Mataram University / General Provice West Nusa Tenggara Hospitals
Country : Indonesia

Date: July, 08, 2019

To,
Petra Klinge
Editor-in-Chief
Interdisciplinary Neurosurgery: Advanced Techniques and Case Management

Sub: Revision Submission of manuscript for publication as a research article.

Dear Editor,

I, ABC, on behalf of my co-authors submit the following manuscript for publication consideration. I understand the objectives of the journal and have formatted the manuscript to fit the style and needs of the journal. I confirm that the manuscript has been prepared for and sent only to the Interdisciplinary Neurosurgery: Advanced Techniques and Case Management for publication consideration and not submitted to any other journal or any other type of publication either by me or any of my co-authors.

Title of the Article: " Subdural Drainage of Liquor Cerebrospinal and Early Tracheostomy : Alternative Management of Severe Traumatic Brain Injury with Minimal Lesion in Limited Facility and Rural Area"

Type of Article: Research

Title: Subdural Drainage of Liquor Cerebrospinal and Early Tracheostomy : Alternative Management of Severe Traumatic Brain Injury with Minimal Lesion in Limited Facility and Rural Area

Journal: Interdisciplinary Neurosurgery: Advanced Techniques and Case Management

Dear Dr. Muhammad Rosyidi,

I am currently identifying and contacting reviewers who are acknowledged experts in the field. Since peer review is a voluntary service it can take time to find reviewers who are both qualified and available. While reviewers are being contacted, the status of your manuscript will appear in EVISE® as 'Reviewer Invited'.

Once a reviewer agrees to review your manuscript, the status will change to 'Under Review'. When I have received the required number of expert reviews, the status will change to 'Ready for Decision' while I evaluate the reviews before making a decision on your manuscript.

To track the status of your manuscript, please log into EVISE® and go to 'My Submissions' via: http://www.evise.com/evise/faces/pages/navigation/NavController.jspx?JRNL_ACR=INAT

Kind regards,

Interdisciplinary Neurosurgery: Advanced Techniques and Case Management

Title: Subdural Drainage of Liquor Cerebrospinal and Early Tracheostomy : Alternative Management of Severe Traumatic Brain Injury with Minimal Lesion in Limited Facility and Rural Area

Journal: Interdisciplinary Neurosurgery: Advanced Techniques and Case Management

Dear Dr. Muhammad Rosyidi,

Thank you for submitting your manuscript to Interdisciplinary Neurosurgery: Advanced Techniques and Case Management.

I have completed my evaluation of your manuscript. The reviewers recommend reconsideration of your manuscript following revision. I invite you to resubmit your manuscript after addressing the comments below.

When revising your manuscript, please consider all issues mentioned in the reviewers' comments carefully: please outline in a cover letter every change made in response to their comments and provide suitable rebuttals for any comments not addressed. Please note that your revised submission may need to be re-reviewed.

If you would like to revise your manuscript, you first need to accept this invitation:

- Log into EVISE® at: http://www.evise.com/evise/faces/pages/navigation/NavController.jspx?JRNL_ACR=INAT;
- Locate your manuscript under the header 'My Submissions that need Revisions' on your 'My Author Tasks' view; and
- Click on 'Agree to Revise'.

Editor and Reviewer Comments:

-Reviewer 1

-

The paper provides interesting data but it still needs a considerable revision to be acceptable for INAT.

So, the authors should also clarify the points listed below.

- Table1: Usia is the Indonesian language．

So, this manuscript would be improved by a thorough English language review.

- Table1: Outcome data is incorrect. Numbers of Life is 14?

International standards in data quality and data presentation are not met.

• The author should show a representative case and schemas about subdural drainage. This point is the significance of this study．

- Results and Discussion should be separated. Don't do it together

• Your conclusion is very redundant writing. The text is well organized, but there are quite a few repetitions, and thus the paper should be shortened to become more concise. Please alter and simplify your conclusion.

Dear Dr. Muhammad Rosyidi,

I am pleased to inform you that I have received all the required reviews, which I will now evaluate before making a decision on your manuscript referenced above.

In the event that I need to seek the opinion of an additional reviewer, you may see the status of your manuscript revert briefly from 'Ready for Decision' to 'Under Review'.

To track the status of your manuscript, please log into EVISE® http://www.evise.com/evise/faces/pages/navigation/NavController.jspx?JRNL_ACR=INAT and go to 'My Submissions'.

I will inform you once I have made a decision.

Thank you again for submitting your manuscript to Interdisciplinary Neurosurgery: Advanced Techniques and Case **Management** and for giving me the opportunity to consider your work.

Kind regards,

Interdisciplinary Neurosurgery: Advanced Techniques and Case **Management**

Your manuscript INAT_2019_239_R1 has been accepted
