Dear **I Gede Bawa Susana, I G. N. K. Yudhyadi, Ida Bagus Alit, Mirmanto and I D.K. Okariawan**

We would like to inform you that your paper titled **"EFFECT OF HOLE SPACING AND NUMBER OF PIPE ON DRYER BOX TEMPERATURE"** has been accepted for publication in **International Journal of Mechanical Engineering & Technology (IJMET)**, Volume 08, Issue 11, (Nov 2017) issue of the journal based on the Recommendation of the Editorial Board without any major corrections in the content submitted by the researcher.

This letter is the official confirmation of acceptance of your research paper.

Your research work is licensed under a Creative Commons Attribution 4.0 (International) License (CC BY-NC 4.0). Hence no need to submit the Copyright form.

Your research paper will be appearing in IJMET, Volume 8, Issue 11, Nov 2017.

International Journal of Mechanical Engineering & Technology (IJMET)

Journal Impact Factor (2016): 9.2286 Calculated by GISI

ISSN Print: 0976 – 6340

ISSN Online: 0976 – 6359

Review Comments are attached along with the mail.

Kindly send the Publication fee of **\$ 450/- (Online only)**. The Online Only mode includes online publication of paper, indexing of paper in more than 20 search engines and soft copy of the publication certificate.

Recommendation					√
<p>Review Comments This research designed and tested dryers operated using rice husk waste as fuel, and based on heat exchange mechanism. Heat exchangers are placed at the bottom of the chaff pile and forced forcible air through the pipes. The heat exchanger receives heat from the chaff burning in the stove, and then releases the heat in the dryer box. The purpose of this research is to know the influence of hole distance and the number of heat exchanger pipe to drying box temperature. The amount of dryer box temperature is greatly influenced by the temperature of the heat exchanger pipe. The highest drying box temperature is obtained at the stove with a 50 mm hole spacing, but the heat release time in the dryer box becomes shorter. The more heat exchanger pipe, the higher the temperature on the dryer box. Design and Development research work. Paper Accepted for publication in IJMET.</p>

Dear **I Gede Bawa Susana, I G. N. K. Yudhyadi, Ida Bagus Alit, Mirmanto and I D.K. Okariawan**

As you aware that, your paper has accepted for publication in our journal and acceptance letter send to your e-mail address.

But still now, we are not received the Publication fee after the acceptance letter issued by IAEME. Kindly send it immediately, so that we can publish your paper in this issue. **We are closing this issue within two days.** If you are not interested to publish, kindly inform us. We are waiting for your response.

Thanks and Regards

Tanggal: Senin, 4 Desember 2017 10.01 WITA

Dear Sir,

Help me for information, whether the paper that I send in the form of "doc" and "docx" has been received.

Title: EFFECT OF HOLE SPACING AND NUMBER OF PIPE ON DRYER BOX TEMPERATURE. The Publishing in IJMET Vol. 8, Issue 11, November 2017.

Paper ID: IJMET/08/11/2017/IJMET_17919

Thank you very much for your cooperation.

Regards,

Dr. I GEDE BAWA SUSANA
Mechanical Engineering Department
Mataram University, Indonesia
