## Response by Authors to Reviewer's Remarks/Comments

### **CREEP SHEAR DEFORMATION OF GLUED-LAMINATED BAMBOO**

**Authors: Ngudiyono, Bambang Suhendro, Ali Awaludin, and Andreas Triwiyono**

The authors have summarized their replies to the Reviewers' comments in this response letter in a two column format. A revised manuscript is submitted addressing all the comments to the Journal of GEOMATE for possible publication.

	<i>Reviewer_A's Comments</i>	<i>Authors Response</i>
	This paper presents some interesting results. It is a good quality paper. It can be recommended for journal publication with some major revisions.	Thanks you for positive evaluation. We have made some revision to our manuscript considering all comments and suggestions
	<i>Reviewer_B's Comments</i>	<i>Authors Response</i>
<b>1</b>	The abstract is too short. It must contain "Problem statement, Approach, Results and Conclusions. Length must be between 150 ~ 250	Abstract has been completed according to suggestions, consisting of problem statement, methodology, results and conclusion. A total of 228 words
<b>2</b>	Keywords: Four or five keywords (First characters of each key word must be in capital/uppercasse letters), Italic	Keywords have been revised as suggested
<b>3</b>	The second level headings should be in 10pt, bold, justified, and First Characters of Each Word are in Capital font. Leave one blank line both before and after the heading, respectively	The sentance of heading only typo errors (figures), have been deleted
<b>4</b>	Try to avoid footnotes. Give all authors' names; do not use "et al."	The writing has been revised and written by all authors (no et al)
<b>5</b>	Blank space: Fill in the space on any page.	The blank space has been filled with text or figure
<b>6</b>	The year of publication must be placed before the page numbers in the all the references	Reference writing has been revised, the year was placed before the page number
<b>7</b>	Please check the attached file to improve the manuscript	Revised manuscript was submitted on International Journal of GEOMATE

The authors appreciate the valuable comments from the Reviewers.
