Dear Dr. I Gede Bramantya Surya Mahendra,

As you had sent us the revised file we sent it to our editor for final comment.

We received the comments from the editor written below in bold letters.

“1- I found it is a good idea, but the title is not suitable; author must remove the university and faculty from the title and enough mention it in the methodology. otherwise, they can mention "Indonesia" in the title but too long to specify all these detail in the title.

2- According to the comment of one of the reviewers, I found there are many factors as the authors mentioned in the correlations results.”

Attached here is the word file with another comments.

Kindly forward the revised file at your earliest.

Looking forward to hearing from you.
