Dear Editor,

I am sending you the final manuscript that has been proofread. I made several changes, particularly in Table 1.

I personally prefer to have Table 1 in the landscape orientation with 19 years on each row, to show clearly the orderly pattern of the 19 years cycle. The revised version (present lay-out) of the Table 1 could not show it. Anyway, I let you decide about the layout of Table 1.

Copyright Transfer and Author Contribution are also attached to this message.

Thank you so much for the collaboration.

Best regards,

Imam

Dr. Imam Bachtiar, M.Sc.
